John:

Thanks for the estimates. What type of program did you use to prepare the survey maps...my laptop doesn't automatically open them.

Have a great vacation...will talk with you when you return.

Thanks, Brad

Subject: ASPECT Cost Estimate for Florida Phosphate Mine Radiological Survey

(See attached file: Cost Estimate.doc) (See attached file: Flight_Lines_300_Feet.kml) (See attached file: Flight_Lines_500_Feet.kml)

Hi Brad,

Attached is a basic cost estimate for the radiological survey over the phosphate mines.

We can break down the costs in a variety of ways, pending your needs.

We are providing two costs (normal survey vs. enhanced survey). I believe you will get the same answers to your question with either survey, but if you want significant overlap to increase sensitivity and reduce the probability of missing a concentrated source area then the enhance survey method will help.

I'm in the office tomorrow but will be out of the office for two weeks (vacation) starting Monday. You can reach me on my cell phone anytime through Friday. If I'm not available, then Mark Thomas will be available to address your questions. His contact information is (513) 675-4753.

Looking forward to hearing how your meeting goes with Franklin!

Thanks for the opportunity to work with you on this project. I hope we can help.

....John
